**Extradition request from the USA I. S. KLIUSHIN Vladislav, b. on September 8, 1980,  
Russian national  
Delivery of goods**

Dear Ladies and Gentlemen

We refer to the extradition request of the Embassy of the USA in Bern of April 19, 2021 as well as to your opinion on the extradition of goods of August 5, 2021 and inform you of the following:

The FOJ has requested the Federal Office of Police fedpol, a division of IT Forensics, by e-mail of April 29, 2021, to make a decrypted copy of the seized data carriers of the smartphone Apple iPhone 12 (IMEI [REDACTED]) and the notebook Apple MacBook Rgo A1706 (number [REDACTED]). On July 12, 2021, fedpol handed over to the BJ the corresponding copy of the data carriers on an external drive.

A review of the data on the drive by the FOJ has shown that no data are stored on the data carriers of the aforementioned electronic devices, which could serve as evidence in the US criminal proceedings. For this reason, the issue of the copy of these data carriers to the US authorities is hereby rejected. The data will be destroyed by the BJ.

Friendly greetings
